PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 10+ years of experience across web, mobile, and backend products. I build risk-led test strategies, maintainable automation, and release practices that help teams ship with confidence. Recent work includes an AI-assisted, configuration-driven QA agent for cross-brand headless testing and a Jira-integrated release hub that reduced tracker preparation from 30–40 minutes to about 5 minutes.

TECHNICAL TOOLKIT

Automation & programming	Playwright, Selenium WebDriver, Appium, Cucumber BDD, Page Object Model, TypeScript, JavaScript, Python, Java, Ruby
API, data & backend	REST API testing, Postman, Karate, SQL, GraphQL, JSON, microservices, database testing, backend integration
CI/CD & delivery	Jenkins, GitHub, GitLab CI/CD, Docker, Git, build and deployment workflows, Jira, Qase, TestRail, TestMo
Mobile, quality & observability	iOS, Android, TestFlight, Firebase, JMeter, OWASP ZAP, accessibility, localization, Grafana, CloudWatch, Sentry, Elasticsearch, Kibana
AI-assisted testing	GitHub Copilot, ChatGPT, Claude; agent-supported test automation and release workflows

SELECTED INITIATIVES

AI QA Agent | Cross-brand headless automation

Built an AI-assisted agent that accepts locale and brand configuration from a local workspace, Git repository, or website URL, then runs headless browser checks across brands. Designed to reduce upkeep associated with large, feature-file-heavy BDD suites while keeping runs review-first and QA-guided.

Jira Release Regression Hub

Developed a Jira-integrated dashboard with AI-agent support to replace manual Excel release tracking. Brings regression progress, projects, fix versions, blockers, and sign-off readiness into one view; reduced preparation time from 30–40 minutes to about 5 minutes.

PROFESSIONAL EXPERIENCE

Sportserve

Apr 2023 – Present
Remote

Senior QA Automation Engineer

- Own end-to-end QA strategy and release quality for high-volume web and mobile products, spanning functional, regression, exploratory, and API testing.
- Built and maintained Playwright automation for critical user journeys, reaching approximately 80% regression coverage and integrating checks into CI/CD pipelines.
- Lead and mentor four QA engineers; drive risk assessment, defect analysis, root-cause investigation, and release readiness across Agile teams.

Monese

Oct 2022 – Apr 2023
Tallinn, Estonia

QA Engineer

- Owned end-to-end QA for iOS and Android digital banking applications, including banking transactions, customer journeys, API integrations, and release quality.
- Partnered with Product and Engineering to validate requirements, acceptance criteria, and release risks; used Postman and Charles Proxy for API and network investigation.
- Managed beta testing with TestFlight and Firebase App Distribution; contributed to multiple mobile banking releases with zero critical production defects during tenure.

Encubate Tech Pvt. Ltd.

Jun 2021 – Jun 2022
Remote

Senior QA Analyst

- Established QA processes, UAT strategy, acceptance criteria, and defect management for ReactJS and Rails applications.
- Executed functional, regression, integration, end-to-end, API, microservices, usability, and cross-platform testing; partnered with Product and Engineering to improve release readiness.

Talentica Software

Sep 2018 – May 2021
Pune, India

Senior QA Engineer

- Developed a Selenium WebDriver and Cucumber BDD automation framework using the Page Object Model; maintained regression suites and test scripts with development teams.
- Delivered functional, regression, Karate API, database, usability, and cross-platform testing; mentored junior QA engineers and performed JMeter and OWASP ZAP testing.

Wipro Technologies

Jul 2015 – Oct 2018
Pune, India

QA Engineer

- Planned and executed manual and automated testing for enterprise web applications across functional, API, and cross-browser scenarios.
- Worked with developers to investigate defects, validate positive, negative, and edge cases, and provide clear evidence to support sprint delivery and product quality.

EDUCATION & CERTIFICATION

B.Tech. in Information Technology

2012 – 2015

Walchand College of Engineering | Sangli, India

Executive Certification | Product Management in Digital Era
